

INTELLIGENCE COMMUNITY STAFF

12 December 1977

STAT

NOTE FOR THE DIRECTOR:

SUBJECT: PRM-23 Issues

Stan:

According to the G-2 we get from the staffers, DoD does not intend to iterate much further with the government organizations involved in the PRM-23 exercise, but rather will go forward to the President with their proposed P.D. forwarding any comments or remarks that the agencies have already submitted and let the NSC Staff presumably broker whatever changes they think appropriate. Further, if the proposed P.D. gives anyone too much agony, then they can go directly to the President.

The point is that it doesn't look like we will have much more opportunity to comment and things are gelling rapidly. Suggest you may want to discuss with Secretary Brown. ||

John N. McMahon
Acting D/DCI/IC
